Connecting with the Community

"Many thanks for your wonderful presentation on the Wolf Center. We really enjoyed hearing more about these amazing creatures and your talk left us all with a greater respect and regard for this species."

Claude Alverson, LIFE at MiraCosta College, in response to a California Wolf Center presentation.

Oregon Origins

A healthy wild wolf population in Oregon is critical to wild wolf recovery in California. As Oregon reviews their management plan, it is possible wolves will lose state protections. Stay up to date on this process and voice your opinion to keep Oregon's wolves protected!

Creative Cards

A young supporter sold handmade cards as a fundraiser to benefit wolves. She raised over \$800 for the California Wolf Center! We are honored that she dedicated her skills and time to our mission.

Education Everywhere

Not only do we offer tours at our conservation center in Julian, we also give offsite presentations throughout California. Recently we spoke at MiraCosta College, spreading the truth about wolves!

Ranch Rounds

Our director of California Wolf Recovery participated in the On Ranch Conservation Tour hosted by Point Blue Conservation Science! She visited several ranches in Northern California. We were given an opportunity to present our philosophy of coexistence and spend time with ranching families we hope to continue working with.

Voice of the Volunteers

Sheryl Frank started volunteering in 2013 after visiting our conservation center several times. Today, she is heavily involved with education and outreach in Northern California. Sheryl is a passionate advocate for wolves!

[Learn About Our Volunteer Program](#)

The California Wolf Center is dedicated to the recovery of wolves in the wildlands they once roamed. We envision a landscape where wolves thrive in healthy ecosystems and wolves and people successfully coexist.
